# Subject Index

- Acute hemorrhagic leukoencephalitis  
computed tomography in acute hemorrhagic leukoencephalitis (Rothstein and Shaw), LETTER, 312
- Acquired immune deficiency syndrome  
acquired immune deficiency syndrome and multiple tract degeneration in a homosexual man (Horoupian et al), 502
- Acrylamides  
central distal axonopathy syndromes: newly recognized models of naturally occurring human degenerative disease (Thomas et al), HYPOTHESIS, 313
- Acyclovir  
ophthalmoplegic polyneuropathy: another case in association with Epstein-Barr virus (Brey), LETTER, 403
- Adenosine triphosphatase  
Na<sup>+</sup>- and K<sup>+</sup>-dependent adenosine triphosphatase and multiple sclerosis (Esiri), LETTER, 404; reply (Hirsch), LETTER, 404
- Adrenergic beta receptor agonists  
response of C-6 glioma to isoproterenol and papaverine in vivo depends on  $\beta$ -adrenergic receptor density (Chelmicka-Schorr et al), 96
- Affective disorders  
positron emission tomographic image measurement in schizophrenia and affective disorders (Buchsbbaum et al), S157  
positron emission tomographic study of affective disorders: problems and strategies (Phelps et al), S149
- Aging  
the effect of normal aging on patterns of local cerebral glucose utilization (Kuhl et al), S133  
neurologic complications of thyrotoxicosis in the elderly (Florin and Walls), LETTER, 608  
positron emission tomographic studies in aging and cerebrovascular disease at Hammersmith Hospital (Frackowiak et al), S112
- Alcohol amnesic disorder  
central nervous system catecholamine metabolism in Korsakoff's psychosis (Martin et al), 184
- Alpha fetoproteins  
human alpha-fetoprotein-rich fraction inhibits galactocerebroside antibody-mediated lysis of oligodendrocytes in vitro (Lubetzki-Korn et al), 171
- Alzheimer's disease  
Alzheimer's disease: a study of epidemiological aspects (Heyman et al), 335  
aphasia/apraxia and familial aggregation in Alzheimer's disease (Breitner), LETTER, 614; reply (Heyman), LETTER, 615  
clinical differences among types of dementia (Benson), LETTER, 403  
incidence and prevalence of Down's syndrome (Mayeux), LETTER, 613; reply (Heyman), LETTER, 614  
long-term administration of oral physostigmine and lecithin improve memory in Alzheimer's disease (Levin and Peters), LETTER, 210; reply (Thal et al), LETTER, 210  
neurofilament subunit-related proteins in neuronal intranuclear inclusions (Palo et al), 322  
Parkinson's disease: neuron loss in the nucleus basalis without concomitant Alzheimer's disease (Nakano and Hirano), 415  
regional cortical dysfunction in Alzheimer's disease as determined by positron emission tomography (Chase et al), S170
- Amino acids, dicarboxylic  
criteria for the tracer kinetic measurement of cerebral protein synthesis in humans with positron emission tomography (Phelps et al), S192
- Amobarbital  
resumption of behavior following intracarotid sodium amobarbital injection (Rausch et al), 31
- Amyloidosis  
amyloid plaques in the brains of mice with Creutzfeldt-Jakob disease (Tateishi et al), 278  
IgM demyelinating neuropathy with amyloidosis and bilateral gammopathy (Julien et al), 395
- Amyotrophic lateral sclerosis  
calcium and vitamin D metabolism in Guamanian Chamorros with amyotrophic lateral sclerosis and parkinsonism-dementia (Yanagihara et al), 42  
conjugal amyotrophic lateral sclerosis (Schwarz), LETTER, 613; reply (Paolino et al), LETTER, 613
- Anemia, pernicious  
neurologic complications of thyrotoxicosis in the elderly (Florin and Walls), LETTER, 608
- Angiography  
angiographic changes in intracranial arteritis of ophthalmic herpes zoster (Fryer et al), LETTER, 311  
bilateral carotid artery occlusion resulting from giant cell arteritis (Howard et al), 204  
encephalopathy following arteriography: a possible toxic effect of contrast agents (Haley), 100
- Anosmia  
mirror movement: application of movement-related cortical potentials (Shibasaki and Nagae), 299
- Anoxia  
effects of hypoxia-ischemia on monoamine metabolism in the immature brain (Silverstein and Johnston), 342
- Anticonvulsants  
N,N-dimethylglycine shows no anticonvulsant potential (Haidukewych and Rodin), LETTER, 405  
outcome in neonates with seizures; are chronic anticonvulsants necessary? (Gal et al), LETTER, 610; reply (Bergman et al), LETTER, 611
- Aphasia  
aphasia/apraxia and familial aggregation in Alzheimer's disease (Breitner), LETTER, 614; reply (Heyman), LETTER, 615  
mechanisms of recovery from aphasia: evidence from serial xenon 133 cerebral blood flow studies (Knopman et al), 530  
transfer of language dominance (Lee et al), 304
- Apnea  
"locked-in" state following Reye's syndrome (Kotagal et al), 599
- Apraxia  
aphasia/apraxia and familial aggregation in Alzheimer's disease (Breitner), LETTER, 614; reply (Heyman), LETTER, 615

- Apraxia (*continued*)  
 apraxia of eyelid opening in progressive supranuclear palsy (Dehaene), LETTER; reply (Jankovic), LETTER, 115  
 partial elementary motor seizures as the first symptom of Creutzfeldt-Jakob disease (Aronyk et al), LETTER, 210
- Arteritis  
 angiographic changes in intracranial arteritis of ophthalmic herpes zoster (Fryer et al), LETTER, 311
- Ataxia  
 severe neurological disease associated with hyperparathyroidism (Patten and Pages), 453
- Auditory pathways  
 deafness in Cockayne's syndrome: morphological, morphometric, and quantitative study of the auditory pathway (Gandolfi et al), 135
- Autoradiography  
 diagnostic imaging of herpes simplex virus encephalitis using a radiolabeled antiviral drug: autoradiographic assessment in an animal model (Saito et al), 548  
 focal cerebral ischemia in the rat: topography of hemodynamic and histopathological changes (Tyson et al), 559
- Axons  
 axolemma is a mitogen for human Schwann cells (Sobue et al), 449  
 central distal axonopathy syndromes: newly recognized models of naturally occurring human degenerative disease (Thomas et al), HYPOTHESIS, 313  
 collateral reinnervation of sweat glands (Kennedy and Sakuta), 73  
 rapid alterations of the axon membrane in antibody-mediated demyelination (Saida et al), 581
- Azathioprine  
 azathioprine in the treatment of myasthenia gravis (Witte et al), 602
- Baclofen  
 baclofen in the treatment of trigeminal neuralgia: double-blind study and long-term follow-up (Fromm et al), 240  
 effect of baclofen on sleep-related periodic leg movements (Guilleminault and Flagg), 234
- Basal ganglia  
 a progressive familial encephalopathy in infancy with calcifications of the basal ganglia and chronic cerebrospinal fluid lymphocytosis (Aicardi and Goutières), 49  
 pure hemidystonia with basal ganglion abnormalities on positron emission tomography (Perlmutter and Raichle), 228
- Basal ganglia diseases  
 neurological disorders associated with deficiency of glutamate dehydrogenase (Plaitakis et al), 144  
 neuronal intranuclear inclusion disease in identical twins (Haltia et al), 316
- Binding sites  
 a quantitative model for the in vivo assessment of drug binding sites with positron emission tomography (Mintun et al), 217
- Blood-brain barrier  
 functional evaluation of the blood-brain barrier using positron emission tomography (Lockwood), S103  
 in vivo measurement of regional brain tissue pH using positron emission tomography (Rottenberg et al), S98  
 the protective influence of the locus ceruleus on the blood-brain barrier (Harik and McGunigal), 568
- Blood flow  
 dynamic measurements of local blood flow and metabolism in the study of higher cortical function in humans with positron emission tomography (Raichle et al), S48  
 regional blood flow in compression-induced brain edema in rats: effect of dietary vitamin E (Busto et al), 441
- Blood flow, cerebral  
 dynamic cerebral positron emission tomographic studies (Ter-Pogossian et al), S46  
 focal cerebral ischemia in the rat: topography of hemodynamic and histopathological changes (Tyson et al), 559  
 mechanisms of recovery from aphasia: evidence from serial xenon 133 cerebral blood flow studies (Knopman et al), 530  
 positron imaging in ischemic stroke disease (Ackerman et al), S126  
 summary of discussion: positron emission tomography of abnormal and diseased states, I (Kuhl), S147
- Blood flow velocity, cerebral  
 emission tomographic measurement of local cerebral blood flow in humans by an in vivo autoradiographic strategy (Ginsberg et al), S12
- Blood glucose  
 high blood glucose level on hospital admission and poor neurological recovery after cardiac arrest (Longstreth and Inui), 59
- Blood sedimentation  
 painful lumbosacral plexopathy with elevated erythrocyte sedimentation rate: a treatable inflammatory syndrome (Bradley et al), 457
- Blood vessels  
 microangiopathy of vasa nervorum in dysglobulinemic neuropathy (Powell et al), 386
- Books  
*Advances in Pain Research and Therapy, Vol 5 (Proceedings of the Third World Congress on Pain)*, edited by Bonica et al (Kriegler), 408  
*Advances in Stroke Therapy*, edited by Rose (Ratcheson), 216  
*Alzheimer's Disease: A Report of Progress in Research (Aging, Vol 19)*, edited by Corkin et al (Terry), 118  
*Clinical Management of Intracranial Aneurysms (Seminars in Neurological Surgery)*, edited by Hopkins and Long (Gamache), 118  
*Controversies in Neurology*, edited by Thompson and Green (Rekate), 216  
*Early Management of Acute Spinal Cord Injury (Seminars in Neurological Surgery)*, edited by Tator (Gamache), 407  
*Essentials of Neurology, Fifth edition*, by Walton (Schaumburg), 616  
*The Genetics of Neurological Disorders (Oxford Monographs on Medical Genetics)*, by Baraitser (Plum), 407  
*H. Houston Merritt Memorial Volume*, edited by Yahr (Daroff), 215  
*Immunoneuropathology (Clinics in Immunology and Allergy, Vol 2, no 2)*, edited by Waksman (Wolinsky), 215  
*Intensive Care for Neurological Trauma and Disease*, edited by Green et al (Ratcheson), 408  
*Lisuride and Other Dopamine Agonists*, edited by Calne et al (Cedarbaum), 215  
*Management of Male Impotence (International Perspectives in Urology, Vol 5)*, edited by Bennett (Caronna), 118  
*Management of Patients with Chronic Pain*, edited by Brena and Chapman (Kriegler), 408  
*Muscle Pathology in Neuromuscular Disease*, by Korényi-Both (Fischbeck), 407  
*Neurobiology*, by Shepherd (LeDoux), 616  
*Neuroleptics: Neurochemical, Behavioral, and Clinical Perspectives*, edited by Coyle and Enna (Hershey), 616  
*Neurology of Hereditary Metabolic Diseases of Children*, by Adams and Lyon (Berg), 216

- Status Epilepticus: Mechanisms of Brain Damage and Treatment* (*Advances in Neurology*, Vol 34), edited by Delgado-Escueta et al (Plum), 616
- Symposium on Cerebrovascular Disease: Neurologic Clinics*, Vol 1, No 1 (February 1983), edited by Barnett (Scheinberg), 617
- Brain abscess**  
brain abscess: a complication of cystic fibrosis in adults (Rabkin and Blaser), LETTER, 608
- Brain death**  
severe neurological impairment: legal aspects of decisions to reduce care (Beresford), NEUROLOGICAL PROGRESS, 409
- Brain mapping**  
extraction of clinical information from electroencephalographic background activity: the combined use of brain electrical activity mapping and intravenous sodium thiopental (Duffy et al), 22  
positron emission tomographic studies of perceptual tasks (Reivich and Gur), S61
- Brain stem**  
brainstem auditory evoked potentials are normal in idiopathic sleep apnea (Karnaze et al), LETTER, 406
- Bromocriptine**  
hypothalamic mass and gigantism in neurofibromatosis: treatment with bromocriptine (Duchowny et al), 302
- Calcification**  
a progressive familial encephalopathy in infancy with calcifications of the basal ganglia and chronic cerebrospinal fluid lymphocytosis (Aicardi and Goutières), 49
- Calcium**  
calcium and vitamin D metabolism in Guamanian Chamorros with amyotrophic lateral sclerosis and parkinsonism-dementia (Yanagihara et al), 42
- Carbon isotopes**  
assessment of dopamine receptor densities in the human brain with carbon-11-labeled N-methylspiperone (Wagner et al), S79  
diagnostic imaging of herpes simplex virus encephalitis using a radiolabeled antiviral drug: autoradiographic assessment in an animal model (Saito et al), 548  
in vivo measurement of regional brain tissue pH using positron emission tomography (Rottenberg et al), S98
- Carotid artery**  
resumption of behavior following intracarotid sodium amobarbital injection (Rausch et al), 31
- Carotid artery diseases**  
bilateral carotid artery occlusion resulting from giant cell arteritis (Howard et al), 204  
concerning progression of carotid disease after endarterectomy (Vollmar), LETTER, 116; reply (Norving), LETTER, 117
- Carpal tunnel syndrome**  
biochemical studies of pyridoxal and pyridoxal phosphate status and therapeutic trial of pyridoxine in patients with carpal tunnel syndrome (Smith et al), 104
- Catecholamines**  
central nervous system catecholamine metabolism in Korsakoff's psychosis (Martin et al), 184
- Caudate nucleus**  
measurements in vivo of parameters of the dopamine system (Friedman et al), S66
- Central nervous system**  
lymphomatoid granulomatosis with isolated involvement of the brain (Schmidt et al), 478  
measles encephalomyelitis: lack of evidence of viral invasion of the central nervous system and quantitative study of the nature of demyelination (Gendelman et al), 353
- Central pontine myelinolysis**  
chronicity of hyponatremia as a factor in experimental myelinolysis (Norenberg and Papendick), 544
- Cerebellar cortex**  
rebound nystagmus in olivocerebellar atrophy: a clinicopathological correlation (Bondar et al), 474
- Cerebellar diseases**  
acquired immune deficiency syndrome and multiple tract degeneration in a homosexual man (Horoupian et al), 502  
central distal axonopathy syndromes: newly recognized models of naturally occurring human degenerative disease (Thomas et al), HYPOTHESIS, 313  
molecular genetics, recombinant DNA techniques, and genetic neurological disease (Rosenberg), NEUROLOGICAL PROGRESS, 511  
neurological disorders associated with deficiency of glutamate dehydrogenase (Plaitakis et al), 144
- Cerebellum**  
eye movements induced by head rotation in unresponsive patients (Leigh et al), 465
- Cerebral cortex**  
amyloid plaques in the brains of mice with Creutzfeldt-Jakob disease (Tateishi et al), 278  
Parkinson's disease: neuron loss in the nucleus basalis without concomitant Alzheimer's disease (Nakano and Hirano), 415
- Cerebral hemorrhage**  
care of the patient with stroke (Snyder), LETTER, 211  
intracerebral hemorrhage and vasculitis related to ephedrine abuse (Nadeau), LETTER, 114; reply (Wooten and Murphy), LETTER, 115  
neglect in children (Ferro et al), 281  
use of a heparinoid in patients with hemorrhagic stroke and thromboembolic disease (Ten Cate et al), 268
- Cerebral infarction**  
care of the patient with stroke (Snyder), LETTER, 211
- Cerebral ischemia**  
pulmonary lymphatic flow alterations during intracranial hypertension in sheep (Simon and Bayne), 188
- Cerebral palsy**  
age at onset of seizures in young children (Ellenberg et al), 127
- Cerebral ventricles**  
elevated neutral protease activity in myelin from brains of patients with multiple sclerosis (Sato et al), 264
- Cerebrosides**  
human alpha-fetoprotein-rich fraction inhibits galactocerebroside antibody-mediated lysis of oligodendrocytes in vitro (Lubetzki-Korn et al), 171  
rapid alterations of the axon membrane in antibody-mediated demyelination (Saida et al), 581
- Cerebrospinal fluid**  
cerebrospinal fluid vasopressin and increased intracranial pressure (Sørensen et al), 435  
paraproteins in the spinal fluid of patients with paraproteinemic polyneuropathies (Dalakas and Papadopoulos), 590
- Cerebrovascular disorders**  
care of the patient with stroke (Snyder), LETTER, 211  
positron emission tomographic studies in aging and cerebrovascular disease at Hammersmith Hospital (Frackowiak et al), S112  
positron imaging in ischemic stroke disease (Ackerman et al), S126

- Cerebrovascular disorders (*continued*)  
 use of a heparinoid in patients with hemorrhagic stroke and thromboembolic disease (Ten Cate et al), 268
- Child development disorders  
 age at onset of seizures in young children (Ellenberg et al), 127
- Chromatin  
 chromatin structure in dementia (McLachlan et al), 329
- Chromosome abnormalities  
 autosomal dominant inheritance of hereditary canine spinal muscular atrophy (Sack et al), 369
- Cockayne syndrome  
 deafness in Cockayne's syndrome: morphological, morphometric, and quantitative study of the auditory pathway (Gandolfi et al), 135
- Cognition  
 comparison of cognitive ability, personality profile, and school success in epileptic children with pure right versus left temporal lobe EEG foci (Camfield et al), 122
- Cognition disorders  
 occupational adjustment following neurosurgical treatment of epilepsy (Augustine et al), 68
- Coma  
 eye movements induced by head rotation in unresponsive patients (Leigh et al), 465
- Complement activation  
 tissue culture demyelination by normal human serum (Silberberg et al), 575
- Conjugation, genetic  
 conjugal amyotrophic lateral sclerosis (Schwarz), LETTER, 613; reply (Paolino et al), LETTER, 613
- Contrast media  
 effect of high-dose intravenous steroid administration on contrast-enhancing tomographic scan lesions in multiple sclerosis (Troiano et al), 257  
 encephalopathy following arteriography: a possible toxic effect of contrast agents (Haley), 100  
 a regional metabolic contrast method for the study of brain pathology (Agranoff and Frey), S93
- Corpus striatum  
 effects of hypoxia-ischemia on monoamine metabolism in the immature brain (Silverstein and Johnston), 342
- Creatine kinase  
 decreased serum creatine kinase activity in patients receiving parenteral nutrition (Nanji and Anderson), LETTER, 111
- Creatine kinase  
 levels of adenylate deaminase, adenylate kinase, and creatine kinase in frozen human muscle biopsy specimens relative to type 1/type 2 fiber distribution: evidence for a carrier state of myoadenylate deaminase deficiency (Fishbein et al), 271
- Creutzfeldt-Jakob disease  
 amyloid plaques in the brains of mice with Creutzfeldt-Jakob disease (Tateishi et al), 278  
 Creutzfeldt-Jakob disease: a case of 16 years' duration (Cutler et al), 107  
 partial elementary motor seizures as the first symptom of Creutzfeldt-Jakob disease (Aronyk et al), LETTER, 210
- Cystic fibrosis  
 brain abscess: a complication of cystic fibrosis in adults (Rabkin and Blaser), LETTER, 608  
 reversible visual evoked potential abnormalities in vitamin E deficiency (Messenheimer et al), 499
- Cytomegalic inclusion disease  
 neurofilament subunit-related proteins in neuronal intranuclear inclusions (Palo et al), 322
- neuronal intranuclear inclusion disease in identical twins (Haltia et al), 316
- Deafness  
 deafness in Cockayne's syndrome: morphological, morphometric, and quantitative study of the auditory pathway (Gandolfi et al), 135
- Dementia  
 acquired immune deficiency syndrome and multiple tract degeneration in a homosexual man (Horoupian et al), 502  
 calcium and vitamin D metabolism in Guamanian Chamorro with amyotrophic lateral sclerosis and parkinsonism-dementia (Yanagihara et al), 42  
 chromatin structure in dementia (McLachlan et al), 329  
 juvenile progressive dystonia: a new phenotype of G<sub>M</sub>2 gangliosidosis (Meek et al), 348  
 lack of clinical benefit from naloxone in a dementia day care hospital (Panella and Blass), LETTER, 308
- Dementia, cortical and subcortical  
 clinical differences among types of dementia (Benson), LETTER, 403  
 cortical and subcortical dementia (Freedman), LETTER, 506; (Agid and Ruberg), LETTER, 507; reply (Mayeux and Stern), LETTER, 508
- Dementia, presenile  
 Alzheimer's disease: a study of epidemiological aspects (Heyman et al), 335  
 aphasia/apraxia and familial aggregation in Alzheimer's disease (Breitner), LETTER, 614; reply (Heyman), LETTER, 615  
 brain trace elements in Pick's disease (Ehmann et al), 102  
 incidence and prevalence of Down's syndrome (Mayeux), LETTER, 613; reply (Heyman), LETTER, 614  
 long-term administration of oral physostigmine and lecithin improve memory in Alzheimer's disease (Levin and Peters), LETTER, 210; reply (Thal et al), LETTER, 210  
 neurofilament subunit-related proteins in neuronal intranuclear inclusions (Palo et al), 322  
 Parkinson's disease: neuron loss in the nucleus basalis without concomitant Alzheimer's disease (Nakano and Hirano), 415  
 regional cortical dysfunction in Alzheimer's disease as determined by positron emission tomography (Chase et al), S170
- Demyelinating diseases  
 axolemma is a mitogen for human Schwann cells (Sobue et al), 449  
 chronicity of hyponatremia as a factor in experimental myelinolysis (Norenberg and Papendick), 544  
 DA strain of Theiler's murine encephalomyelitis virus induces demyelination in nude mice (Roos and Wollmann), 494  
 demyelination induced by serum from patients with Guillain-Barré syndrome (Harrison et al), 163  
 IgM demyelinating neuropathy with amyloidosis and biconal gammopathy (Julien et al), 395  
 measles encephalomyelitis: lack of evidence of viral invasion of the central nervous system and quantitative study of the nature of demyelination (Gendelman et al), 353  
 rapid alterations of the axon membrane in antibody-mediated demyelination (Saida et al), 581  
 tissue culture demyelination by normal human serum (Silberberg et al), 575
- Deoxy sugars  
 the effect of normal aging on patterns of local cerebral glucose utilization (Kuhl et al), S133

- the functional anatomy of frontal lobe neglect in the monkey: behavioral and quantitative 2-deoxyglucose studies (Deuel and Collins), 521
- Gilles de la Tourette syndrome: studies with the fluorine-18-labeled fluorodeoxyglucose positron emission tomographic method (Chase et al), S175
- human sensory stimulation and deprivation: positron emission tomographic results and strategies (Mazziotta and Phelps), S50
- issues in the *in vivo* measurement of glucose metabolism of human central nervous system tumors (Di Chiro et al), S138
- patterns of local cerebral glucose utilization determined in Parkinson's disease by the [<sup>18</sup>F]fluorodeoxyglucose method (Kuhl et al), 419
- patterns of metabolic activity in the treatment of schizophrenia (Brodie et al), S166
- positron emission tomographic studies of perceptual tasks (Reivich and Gur), S61
- positron emission tomographic study of affective disorders: problems and strategies (Phelps et al), S149
- regional cortical dysfunction in Alzheimer's disease as determined by positron emission tomography (Chase et al), S170
- a regional metabolic contrast method for the study of brain pathology (Agranoff and Frey), S93
- the role of positron emission tomography in the evaluation of seizure disorders (Theodore et al), S176
- the use of positron emission tomographic scanning in epilepsy (Engel), S180
- Dexamethasone**  
steroid-responsive postinfectious sensorineural hearing loss (Amir et al), LETTER, 212
- Diabetes mellitus**  
painful lumbosacral plexopathy with elevated erythrocyte sedimentation rate: a treatable inflammatory syndrome (Bradley et al), 457  
quantitation of the sweating deficiency in diabetes mellitus (Kennedy et al), 482
- Diabetes mellitus, juvenile**  
spinal somatosensory evoked potentials in juvenile diabetes (Cracco et al), 55
- Diabetic neuropathies**  
diabetic neuropathy (Brown and Asbury), NEUROLOGICAL PROGRESS, 2
- Dimethylamines**  
*N,N*-dimethylglycine shows no anticonvulsant potential (Haidukewych and Rodin), LETTER, 405
- DNA, recombinant**  
molecular genetics, recombinant DNA techniques, and genetic neurological disease (Rosenberg), NEUROLOGICAL PROGRESS, 511
- Dominance, cerebral**  
transfer of language dominance (Lee et al), 304
- Dopamine**  
central nervous system catecholamine metabolism in Korsakoff's psychosis (Martin et al), 184  
measurements *in vivo* of parameters of the dopamine system (Friedman et al), S66  
patterns of local cerebral glucose utilization determined in Parkinson's disease by the [<sup>18</sup>F]fluorodeoxyglucose method (Kuhl et al), 419
- Down's syndrome**  
incidence and prevalence of Down's syndrome (Mayeux), LETTER, 613; reply (Heyman), LETTER, 614
- Dwarfism**  
deafness in Cockayne's syndrome: morphological, morphometric, and quantitative study of the auditory pathway (Gandolfi et al), 135
- Dysautonomia, familial**  
dysautonomia in Guillain-Barré syndrome with dorsal root ganglioneuropathy, wallerian degeneration, and fatal myocarditis (Hodson et al), 88
- Dysgammaglobulinemia**  
microangiopathy of vasa nervorum in dysglobulinemic neuropathy (Powell et al), 386
- Dystonia**  
a progressive familial encephalopathy in infancy with calcifications of the basal ganglia and chronic cerebrospinal fluid lymphocytosis (Aicardi and Goutières), 49  
pure hemidystonia with basal ganglion abnormalities on positron emission tomography (Perlmutter and Raichle), 228
- Dystonia, juvenile progressive**  
juvenile progressive dystonia: a new phenotype of G<sub>M2</sub> gangliosidosis (Meek et al), 348
- Echocardiography**  
outcome of neonatal intraventricular hemorrhage with periventricular echodense lesions (McMenamin et al), 285
- Edema, brain**  
regional blood flow in compression-induced brain edema in rats: effect of dietary vitamin E (Busto et al), 441
- Editor's note, 1**
- Electroencephalography**  
comparison of cognitive ability, personality profile, and school success in epileptic children with pure right versus left temporal lobe EEG foci (Camfield et al), 122  
extraction of clinical information from electroencephalographic background activity: the combined use of brain electrical activity mapping and intravenous sodium thiopental (Duffy et al), 22  
opioid-induced epileptogenic phenomena: anatomical, behavioral, and electroencephalographic features (Chugani et al), 361  
resumption of behavior following intracarotid sodium amobarbital injection (Rausch et al), 31  
the role of positron emission tomography in the evaluation of seizure disorders (Theodore et al), S176
- Encephalitis**  
acute hemorrhagic leukoencephalitis: diagnosis by computed tomography (Watson et al), LETTER, 611  
diagnostic imaging of herpes simplex virus encephalitis using a radiolabeled antiviral drug: autoradiographic assessment in an animal model (Saito et al), 548  
measles encephalomyelitis: lack of evidence of viral invasion of the central nervous system and quantitative study of the nature of demyelination (Gendelman et al), 353
- Encephalomyelitis virus**  
DA strain of Theiler's murine encephalomyelitis virus induces demyelination in nude mice (Roos and Wollmann), 494
- Encephalopathy, global**  
encephalopathy following arteriography: a possible toxic effect of contrast agents (Haley), 100
- Enkephalin, leucine**  
the ontogeny of seizures induced by leucine-enkephalin and  $\beta$ -endorphin (Snead and Stephens), 594
- Epilepsy**  
age at onset of seizures in young children (Ellenberg et al), 127  
epilepsy and intelligence (Shafer), LETTER, 506; reply (Rimmer and Prensky), LETTER, 506

## Epilepsy (*continued*)

- occupational adjustment following neurosurgical treatment of epilepsy (Augustine et al), 68
- opioid-induced epileptogenic phenomena: anatomical, behavioral, and electroencephalographic features (Chugani et al), 361
- selective memory improvement and impairment in temporal lobectomy for epilepsy (Novelly et al), 64
- the use of positron emission tomographic scanning in epilepsy (Engel), S180
- Epilepsy, temporal lobe
  - comparison of cognitive ability, personality profile, and school success in epileptic children with pure right versus left temporal lobe EEG foci (Camfield et al), 122
  - resumption of behavior following intracarotid sodium amobarbital injection (Rausch et al), 31
- Enderterectomy
  - concerning progression of carotid disease after endarterectomy (Vollmar), LETTER, 116; reply (Norvving), LETTER, 117
- Ephedrine
  - intracerebral hemorrhage and vasculitis related to ephedrine abuse (Nadeau), LETTER, 114; reply (Wooten and Murphy), LETTER, 115
- Epstein-Barr virus
  - ophthalmoplegic polyneuropathy: another case in association with Epstein-Barr virus (Brey), LETTER, 403
- Evoked potentials, auditory
  - brainstem auditory evoked potentials are normal in idiopathic sleep apnea (Karnaze et al), LETTER, 406
  - steroid-responsive postinfectious sensorineural hearing loss (Amir et al), LETTER, 212
- Evoked potentials, somatosensory
  - spinal somatosensory evoked potentials in juvenile diabetes (Cracco et al), 55
- Evoked potentials, visual
  - reversible visual evoked potential abnormalities in vitamin E deficiency (Messenheimer et al), 499
- Eyelid diseases
  - apraxia of eyelid opening in progressive supranuclear palsy (Dehaene), LETTER; reply (Jankovic), LETTER, 115
- Eye movements
  - eye movements induced by head rotation in unresponsive patients (Leigh et al), 465
  - hypometric saccades and low-gain pursuit resulting from a thalamic hemorrhage (Brigell et al), 374
- Forensic medicine
  - severe neurological impairment: legal aspects of decisions to reduce care (Beresford), NEUROLOGICAL PROGRESS, 409
- Frontal lobe
  - the functional anatomy of frontal lobe neglect in the monkey: behavioral and quantitative 2-deoxyglucose studies (Deuel and Collins), 521
- Galactosidases
  - carrier detection of sialidosis with partial galactosidase deficiency by the assay of lysosomal sialidase in lymphocytes (Tsuji et al), 181
- Ganglia, spinal
  - dysautonomia in Guillain-Barré syndrome with dorsal root ganglioneuropathy, wallerian degeneration, and fatal myocarditis (Hodson et al), 88
- Gangliosidosis
  - juvenile progressive dystonia: a new phenotype of G<sub>M2</sub> gangliosidosis (Meek et al), 348

## Genes, viral

- detection of viral genes and their products in chronic neurological diseases (Haase et al), CONFERENCE REPORT, 119

## Genetics

- aphasia/apraxia and familial aggregation in Alzheimer's disease (Breitner), LETTER, 614; reply (Heyman), LETTER, 615

## Genetics, medical

- Alzheimer's disease: a study of epidemiological aspects (Heyman et al), 335
- autosomal dominant inheritance of hereditary canine spinal muscular atrophy (Sack et al), 369
- incidence and prevalence of Down's syndrome (Mayeux), LETTER, 613; reply (Heyman), LETTER, 614

## Genetics, molecular

- molecular genetics, recombinant DNA techniques, and genetic neurological disease (Rosenberg), NEUROLOGICAL PROGRESS, 511

## Gigantism

- hypothalamic mass and gigantism in neurofibromatosis: treatment with bromocriptine (Duchowny et al), 302

## Gilles de la Tourette's disease

- Gilles de la Tourette syndrome: studies with the fluorine-18-labeled fluorodeoxyglucose positron emission tomographic method (Chase et al), S175
- motion sickness in children with Tourette's syndrome (Barabas et al), LETTER, 309

## Glioma

- issues in the in vivo measurement of glucose metabolism of human central nervous system tumors (Di Chiro et al), S138
- response of C-6 glioma to isoproterenol and papaverine in vivo depends on  $\beta$ -adrenergic receptor density (Chelmicka-Schorr et al), 96

## Globus pallidus

- Parkinson's disease: metabolic and pharmacological approaches with positron emission tomography (Raichle et al), S131

## Glutamate dehydrogenase

- neurological disorders associated with deficiency of glutamate dehydrogenase (Plaitakis et al), 144

## Granulocytes

- medullasin activity in granulocytes of patients with multiple sclerosis (Aoki et al), 245

## Hearing loss, sensorineural

- steroid-responsive postinfectious sensorineural hearing loss (Amir et al), LETTER, 212

## Heart arrest

- high blood glucose level on hospital admission and poor neurological recovery after cardiac arrest (Longstreth and Inui), 59

## Hemorrhage

- acute hemorrhagic leukoencephalitis: diagnosis by computed tomography (Watson et al), LETTER, 611
- computed tomography in acute hemorrhagic leukoencephalitis (Rothstein and Shaw), LETTER, 312

## Hemorrhage, intraventricular

- neurodevelopmental outcome of survivors with post-hemorrhagic hydrocephalus following grade II neonatal intraventricular hemorrhage (Krishnamoorthy et al), 201
- outcome of neonatal intraventricular hemorrhage with periventricular echodense lesions (McMenamin et al), 285

- Hemorrhage, lack of  
nonhemorrhagic venous infarction of the spinal cord (Kim et al), 379
- Hemorrhage, thalamic  
hypometric saccades and low-gain pursuit resulting from a thalamic hemorrhage (Brigell et al), 374
- Hemorrhagic disorders of newborn  
neurodevelopmental outcome of survivors with post-hemorrhagic hydrocephalus following grade II neonatal intraventricular hemorrhage (Krishnamoorthy et al), 201
- Heparinoid  
use of a heparinoid in patients with hemorrhagic stroke and thromboembolic disease (Ten Cate et al), 268
- Hereditary diseases  
hereditary form of sustained muscle activity of peripheral nerve origin causing generalized myokymia and muscle stiffness (Auger et al), 13  
neurological disorders associated with deficiency of glutamate dehydrogenase (Plaitakis et al), 144
- Herpesvirus hominis  
diagnostic imaging of herpes simplex virus encephalitis using a radiolabeled antiviral drug: autoradiographic assessment in an animal model (Saito et al), 548
- Herpes zoster, ocular  
angiographic changes in intracranial arteritis of ophthalmic herpes zoster (Fryer et al), LETTER, 311
- Huntington chorea  
clinical differences among types of dementia (Benson), LETTER, 403  
Huntington's disease: survival of large striatal neurons in the rigid variant (Bugiani et al), 154  
molecular genetics, recombinant DNA techniques, and genetic neurological disease (Rosenberg), NEUROLOGICAL PROGRESS, 511  
patterns of cerebral glucose utilization in Parkinson's disease and Huntington's disease (Kuhl et al), S119  
[<sup>18</sup>F]spiroperidol: a radiopharmaceutical for the in vivo study of the dopamine receptor (Welch et al), S77
- Hydrocephalus  
neurodevelopmental outcome of survivors with post-hemorrhagic hydrocephalus following grade II neonatal intraventricular hemorrhage (Krishnamoorthy et al), 201
- Hydroxytryptophan  
hyperekplexia: a syndrome of pathological startle responses (Sáenz-Lope et al), 36
- Hyperglycemia  
diabetic neuropathy (Brown and Asbury), NEUROLOGICAL PROGRESS, 2
- Hyperkinesia  
Huntington's disease: survival of large striatal neurons in the rigid variant (Bugiani et al), 154
- Hyperparathyroidism  
severe neurological disease associated with hyperparathyroidism (Patten and Pages), 453
- Hypertension  
pulmonary lymphatic flow alterations during intracranial hypertension in sheep (Simon and Bayne), 188
- Hyperthyroidism  
neurologic complications of thyrotoxicosis in the elderly (Florin and Walls), LETTER, 608
- Hypogonadism  
mirror movement: application of movement-related cortical potentials (Shibasaki and Nagae), 299
- Hyponatremia  
chronicity of hyponatremia as a factor in experimental myelinolysis (Norenberg and Papendick), 544
- Hypothalamic neoplasms  
hypothalamic mass and gigantism in neurofibromatosis: treatment with bromocriptine (Duchowny et al), 302
- IgM  
IgM demyelinating neuropathy with amyloidosis and biconal gammopathy (Julien et al), 395
- Immune complex disease  
acquired immune deficiency syndrome and multiple tract degeneration in a homosexual man (Horoupian et al), 502
- Immunoassay techniques  
enzyme-linked immunosorbent assay for antibody against the nicotinic acetylcholine receptor in human myasthenia gravis (Kawanami et al), 195
- Immunoglobulins  
IgM demyelinating neuropathy with amyloidosis and biconal gammopathy (Julien et al), 395
- Infarction  
mechanisms of recovery from aphasia: evidence from serial xenon 133 cerebral blood flow studies (Knopman et al), 530  
neglect in children (Ferro et al), 281
- Infarction, venous  
nonhemorrhagic venous infarction of the spinal cord (Kim et al), 379
- Insulin resistance  
whole body insulin resistance in myotonic dystrophy (Moxley et al), 157
- Intelligence  
epilepsy and intelligence (Shafer), LETTER, 506; reply (Rimmer and Prenskey), LETTER, 506
- Intracranial pressure  
cerebrospinal fluid vasopressin and increased intracranial pressure (Sørensen et al), 435
- Intranuclear inclusion disease  
neurofilament subunit-related proteins in neuronal intranuclear inclusions (Palo et al), 322
- Ischemia  
contralateral cerebellar hypometabolism following cerebral insult: a positron emission tomographic study (Kushner et al), 425  
effects of hypoxia-ischemia on monoamine metabolism in the immature brain (Silverstein and Johnston), 342  
painful lumbosacral plexopathy with elevated erythrocyte sedimentation rate: a treatable inflammatory syndrome (Bradley et al), 457  
positron imaging in ischemic stroke disease (Ackerman et al), S126
- Ischemia, cerebral  
focal cerebral ischemia in the rat: topography of hemodynamic and histopathological changes (Tyson et al), 559
- Isoproterenol  
response of C-6 glioma to isoproterenol and papaverine in vivo depends on  $\beta$ -adrenergic receptor density (Chelmicka-Schorr et al), 96
- Jakob-Creutzfeldt syndrome  
amyloid plaques in the brains of mice with Creutzfeldt-Jakob disease (Tateishi et al), 278  
Creutzfeldt-Jakob disease: a case of 16 years' duration (Cutler et al), 107  
partial elementary motor seizures as the first symptom of Creutzfeldt-Jakob disease (Aronyk et al), LETTER, 210

## Kinetics

- criteria for the tracer kinetic measurement of cerebral protein synthesis in humans with positron emission tomography (Phelps et al), S192

## Language disorders

- transfer of language dominance (Lee et al), 304

## Larynx

- radiation absorbed dose to tracheal mucosa from inhaled oxygen-15-labeled carbon dioxide (Powell et al), S107

## Lecithin

- long-term administration of oral physostigmine and lecithin improve memory in Alzheimer's disease (Levin and Peters), LETTER, 210; reply (Thal et al), LETTER, 210

## Leg movements

- effect of baclofen on sleep-related periodic leg movements (Guilleminault and Flagg), 234

## Leukodystrophy

- computed tomography in Alexander's disease (Farrell et al), 605

## Leukoencephalitis, acute hemorrhagic

- acute hemorrhagic leukoencephalitis: diagnosis by computed tomography (Watson et al), LETTER, 611

## Leukoencephalopathy

- computed tomography in acute hemorrhagic leukoencephalitis (Rothstein and Shaw), LETTER, 312

## Lithium

- lithium and parkinsonism (Lang), LETTER, 214
- permanent neurological deficits resulting from lithium toxicity (Green), LETTER, 111

## Liver cirrhosis

- reversible visual evoked potential abnormalities in vitamin E deficiency (Messenheimer et al), 499

## Lobotomy, temporal

- selective memory improvement and impairment in temporal lobectomy for epilepsy (Novelly et al), 64

## Locus coeruleus

- the protective influence of the locus coeruleus on the blood-brain barrier (Harik and McGunigal), 568

## Lumbosacral plexus

- painful lumbosacral plexopathy with elevated erythrocyte sedimentation rate: a treatable inflammatory syndrome (Bradley et al), 457

## Lung

- radiation absorbed dose to tracheal mucosa from inhaled oxygen-15-labeled carbon dioxide (Powell et al), S107

## Lymphatic system

- pulmonary lymphatic flow alterations during intracranial hypertension in sheep (Simon and Bayne), 188

## Lymphocytes

- carrier detection of sialidosis with partial galactosidase deficiency by the assay of lysosomal sialidase in lymphocytes (Tsuji et al), 181

## Lymphocytosis, cerebrospinal fluid

- a progressive familial encephalopathy in infancy with calcifications of the basal ganglia and chronic cerebrospinal fluid lymphocytosis (Aicardi and Goutières), 49

## Lymphomatoid granulomatosis

- lymphomatoid granulomatosis with isolated involvement of the brain (Schmidt et al), 478

## Lymphoproliferative disorders

- the lymphoproliferative response to measles virus in twins with multiple sclerosis (Greenstein et al), 79

## Lysosomes

- carrier detection of sialidosis with partial galactosidase deficiency by the assay of lysosomal sialidase in lymphocytes (Tsuji et al), 181

## Measles

- measles encephalomyelitis: lack of evidence of viral invasion of the central nervous system and quantitative study of the nature of demyelination (Gendelman et al), 353

## Measles virus

- the lymphoproliferative response to measles virus in twins with multiple sclerosis (Greenstein et al), 79

## Memory disorders

- selective memory improvement and impairment in temporal lobectomy for epilepsy (Novelly et al), 64

## Meningioma

- neglect in children (Ferro et al), 281

## Mental retardation

- age at onset of seizures in young children (Ellenberg et al), 127

## Metabolism

- central nervous system catecholamine metabolism in Korsakoff's psychosis (Martin et al), 184

## Metabolism, brain

- modeling metabolic processes in the brain in vivo (Sokoloff), S1

## Metabolism, cerebellar

- contralateral cerebellar hypometabolism following cerebral insult: a positron emission tomographic study (Kushner et al), 425

## Metabolism, cerebral

- criteria for the tracer kinetic measurement of cerebral protein synthesis in humans with positron emission tomography (Phelps et al), S192
- the effect of normal aging on patterns of local cerebral glucose utilization (Kuhl et al), S133
- human sensory stimulation and deprivation: positron emission tomographic results and strategies (Mazziotta and Phelps), S50
- issues in the in vivo measurement of glucose metabolism of human central nervous system tumors (Di Chiro et al), S138

- patterns of cerebral glucose utilization in Parkinson's disease and Huntington's disease (Kuhl et al), S119

- patterns of local cerebral glucose utilization determined in Parkinson's disease by the [ $^{18}\text{F}$ ]fluorodeoxyglucose method (Kuhl et al), 419

- patterns of metabolic activity in the treatment of schizophrenia (Brodie et al), S166

- positron emission tomographic studies of perceptual tasks (Reivich and Gur), S61

- positron emission tomographic study of affective disorders: problems and strategies (Phelps et al), S149

- regional cortical dysfunction in Alzheimer's disease as determined by positron emission tomography (Chase et al), S170

- a regional metabolic contrast method for the study of brain pathology (Agranoff and Frey), S93

## Metabolism, cortical

- dynamic measurements of local blood flow and metabolism in the study of higher cortical function in humans with positron emission tomography (Raichle et al), S48

## Methylprednisolone

- effect of high-dose intravenous steroid administration on contrast-enhancing tomographic scan lesions in multiple sclerosis (Troiano et al), 257

## Microcephaly

- a progressive familial encephalopathy in infancy with calcifications of the basal ganglia and chronic cerebrospinal fluid lymphocytosis (Aicardi and Goutières), 49

## Mitogens

- axolemma is a mitogen for human Schwann cells (Sobue et al), 449

- Monoamine oxidase metabolism**  
effects of hypoxia-ischemia on monoamine metabolism in the immature brain (Silverstein and Johnston), 342
- Mononeuritis multiplex**  
mononeuritis multiplex following jellyfish stings (Filling-Katz), NOTE, 213
- Motion sickness**  
motion sickness in children with Tourette's syndrome (Barabas et al), LETTER, 309
- Motor cortex**  
mirror movement: application of movement-related cortical potentials (Shibasaki and Naga), 299
- Motor neurons**  
autosomal dominant inheritance of hereditary canine spinal muscular atrophy (Sack et al), 369  
neuronal intranuclear inclusion disease in identical twins (Haltia et al), 316
- Movement disorders**  
the use of positron emission tomographic scanning in epilepsy (Engel), S180
- Multiple sclerosis**  
DA strain of Theiler's murine encephalomyelitis virus induces demyelination in nude mice (Roos and Wollmann), 494  
detection of viral genes and their products in chronic neurological diseases (Haase et al), CONFERENCE REPORT, 119  
effect of high-dose intravenous steroid administration on contrast-enhancing tomographic scan lesions in multiple sclerosis (Troiano et al), 257  
elevated neutral protease activity in myelin from brains of patients with multiple sclerosis (Sato et al), 264  
medullasin activity in granulocytes of patients with multiple sclerosis (Aoki et al), 245  
Na<sup>+</sup>- and K<sup>+</sup>-dependent adenosine triphosphatase and multiple sclerosis (Esiri), LETTER, 404; reply (Hirsch), LETTER, 404  
nuclear magnetic resonance versus computerized tomographic enhancement imaging in multiple sclerosis: an apples and oranges comparison (Sears), LETTER, 309; reply (Norman and Aminoff), LETTER, 310  
the lymphoproliferative response to measles virus in twins with multiple sclerosis (Greenstein et al), 79  
a serial study of peripheral blood T lymphocyte subsets in relapsing-remitting multiple sclerosis (Kastrukoff and Paty), 250  
some notes on making the diagnosis of multiple sclerosis (Rose), LETTER, 112; reply (Poser), LETTER, 112  
tissue culture demyelination by normal human serum (Silberberg et al), 575
- Muscle rigidity**  
hereditary form of sustained muscle activity of peripheral nerve origin causing generalized myokymia and muscle stiffness (Auger et al), 13
- Muscle spasticity**  
acquired immune deficiency syndrome and multiple tract degeneration in a homosexual man (Horoupian et al), 502  
a progressive familial encephalopathy in infancy with calcifications of the basal ganglia and chronic cerebrospinal fluid lymphocytosis (Aicardi and Goutières), 49
- Muscular atrophy**  
autosomal dominant inheritance of hereditary canine spinal muscular atrophy (Sack et al), 369
- Muscular dystrophy**  
molecular genetics, recombinant DNA techniques, and genetic neurological disease (Rosenberg), NEUROLOGICAL PROGRESS, 511
- Myasthenia gravis**  
azathioprine in the treatment of myasthenia gravis (Witte et al), 602  
enzyme-linked immunosorbent assay for antibody against the nicotinic acetylcholine receptor in human myasthenia gravis (Kawanami et al), 195  
exacerbation of myasthenia gravis after removal of a thymoma having a membrane phenotype of suppressor T cells (Kuroda et al), 400  
long-term corticosteroid treatment of myasthenia gravis: report of 116 patients (Pascuzzi et al), 291
- Myelin proteins**  
elevated neutral protease activity in myelin from brains of patients with multiple sclerosis (Sato et al), 264
- Myelin sheath**  
chronicity of hyponatremia as a factor in experimental myelinolysis (Norenberg and Papendick), 544  
IgM demyelinating neuropathy with amyloidosis and biconal gammopathy (Julien et al), 395  
measles encephalomyelitis: lack of evidence of viral invasion of the central nervous system and quantitative study of the nature of demyelination (Gendelman et al), 353
- Myocarditis**  
dysautonomia in Guillain-Barré syndrome with dorsal root ganglioneuropathy, wallerian degeneration, and fatal myocarditis (Hodson et al), 88
- Myoclonus**  
effect of baclofen on sleep-related periodic leg movements (Guilleminault and Flagg), 234  
hereditary form of sustained muscle activity of peripheral nerve origin causing generalized myokymia and muscle stiffness (Auger et al), 13  
the use of positron emission tomographic scanning in epilepsy (Engel), S180
- Myositis**  
disturbance of regulatory lymphocyte subsets in polymyositis (Behan and Behan), LETTER, 112; reply (Lawton and Fenichel), LETTER, 114
- Myotonia atrophica**  
whole body insulin resistance in myotonic dystrophy (Moxley et al), 157
- Naloxone**  
lack of clinical benefit from naloxone in a dementia day care hospital (Panella and Blass), LETTER, 308  
the ontogeny of seizures induced by leucine-enkephalin and  $\beta$ -endorphin (Snead and Stephens), 594  
opioid-induced epileptogenic phenomena: anatomical, behavioral, and electroencephalographic features (Chugani et al), 361
- Neglect**  
the functional anatomy of frontal lobe neglect in the monkey: behavioral and quantitative 2-deoxyglucose studies (Deuel and Collins), 521  
neglect in children (Ferro et al), 281
- Neonatology**  
outcome of neonatal intraventricular hemorrhage with periventricular echodense lesions (McMenamin et al), 285  
outcome in neonates with seizures: are chronic anticonvulsants necessary? (Gal et al), LETTER, 610; reply (Bergman et al), LETTER, 611
- Neoplasms, brain**  
contralateral cerebellar hypometabolism following cerebral insult: a positron emission tomographic study (Kushner et al), 425
- Nerve degeneration**  
axolemma is a mitogen for human Schwann cells (Sobue et al), 449

- Nerve degeneration (*continued*)  
 dysautonomia in Guillain-Barré syndrome with dorsal root ganglioneuropathy, wallerian degeneration, and fatal myocarditis (Hodson et al), 88
- Neural conduction  
 quantitation of the sweating deficiency in diabetes mellitus (Kennedy et al), 482
- Neuroamidase  
 carrier detection of sialidosis with partial galactosidase deficiency by the assay of lysosomal sialidase in lymphocytes (Tsuji et al), 181
- Neurofibromatosis  
 hypothalamic mass and gigantism in neurofibromatosis: treatment with bromocriptine (Duchowny et al), 302
- Neuroglia  
 human alpha-fetoprotein-rich fraction inhibits galactocerebroside antibody-mediated lysis of oligodendrocytes in vitro (Lubetzki-Korn et al), 171
- Neurologic deficits  
 permanent neurological deficits resulting from lithium toxicity (Green), LETTER, 111
- Neurologic manifestations  
 high blood glucose level on hospital admission and poor neurological recovery after cardiac arrest (Longstreth and Inui), 59  
 neurologic complications of thyrotoxicosis in the elderly (Florin and Walls), LETTER, 608  
 severe neurological disease associated with hyperparathyroidism (Patten and Pages), 453  
 severe neurological impairment: legal aspects of decisions to reduce care (Beresford), NEUROLOGICAL PROGRESS, 409
- Neuronal intranuclear inclusion disease  
 neuronal intranuclear inclusion disease in identical twins (Haltia et al), 316
- Neurons  
 Parkinson's disease: neuron loss in the nucleus basalis without concomitant Alzheimer's disease (Nakano and Hirano), 415
- Neurons, striatal  
 Huntington's disease: survival of large striatal neurons in the rigid variant (Bugiani et al), 154
- Norepinephrine  
 the protective influence of the locus ceruleus on the blood-brain barrier (Harik and McGunigal), 568
- Nuclear magnetic resonance  
 nuclear magnetic resonance versus computerized tomographic enhancement imaging in multiple sclerosis: an apples and oranges comparison (Sears), LETTER, 309; reply (Norman and Aminoff), LETTER, 310
- Nucleotide deaminases  
 levels of adenylate deaminase, adenylate kinase, and creatine kinase in frozen human muscle biopsy specimens relative to type 1/type 2 fiber distribution: evidence for a carrier state of myoadenylate deaminase deficiency (Fishbein et al), 271
- Nystagmus  
 rebound nystagmus in olivocerebellar atrophy: a clinicopathological correlation (Bondar et al), 474
- Obituary  
 Bender, Morris B. (Cohen), OBITUARY, 208
- Olivary nucleus  
 rebound nystagmus in olivocerebellar atrophy: a clinicopathological correlation (Bondar et al), 474
- Ophthalmoplegia  
 ophthalmoplegic polyneuropathy: another case in association with Epstein-Barr virus (Brey), LETTER, 403
- severe neurological disease associated with hyperparathyroidism (Patten and Pages), 453
- Oxygen isotopes  
 radiation absorbed dose to tracheal mucosa from inhaled oxygen-15-labeled carbon dioxide (Powell et al), S107
- Papaverine  
 response of C-6 glioma to isoproterenol and papaverine in vivo depends on  $\beta$ -adrenergic receptor density (Chelmicka-Schorr et al), 96
- Paraproteins  
 paraproteins in the spinal fluid of patients with paraproteinemic polyneuropathies (Dalakas and Papadopoulos), 590
- Parenteral feeding  
 decreased serum creatine kinase activity in patients receiving parenteral nutrition (Nanji and Anderson), LETTER, 111
- Parkinson disease  
 calcium and vitamin D metabolism in Guamanian Chamorros with amyotrophic lateral sclerosis and parkinsonism-dementia (Yanagihara et al), 42  
 central distal axonopathy syndromes: newly recognized models of naturally occurring human degenerative disease (Thomas et al), HYPOTHESIS, 313  
 clinical differences among types of dementia (Benson), LETTER, 403  
 lithium and parkinsonism (Lang), LETTER, 214  
 Parkinson's disease: metabolic and pharmacological approaches with positron emission tomography (Raichle et al), S131  
 Parkinson's disease: neuron loss in the nucleus basalis without concomitant Alzheimer's disease (Nakano and Hirano), 415  
 patterns of cerebral glucose utilization in Parkinson's disease and Huntington's disease (Kuhl et al), S119  
 patterns of local cerebral glucose utilization determined in Parkinson's disease by the [ $^{18}\text{F}$ ]fluorodeoxyglucose method (Kuhl et al), 419  
 [ $^{18}\text{F}$ ]spiroperidol: a radiopharmaceutical for the in vivo study of the dopamine receptor (Welch et al), S77
- Particle accelerators  
 cyclotrons, radionuclides, precursors, and demands for routine versus research compounds (Wolf), S19
- Peptide hydrolases  
 elevated neutral protease activity in myelin from brains of patients with multiple sclerosis (Sato et al), 264  
 medullasin activity in granulocytes of patients with multiple sclerosis (Aoki et al), 245
- Peripheral nerve diseases  
 diabetic neuropathy (Brown and Asbury), NEUROLOGICAL PROGRESS, 2  
 microangiopathy of vasa nervorum in dysglobulinemic neuropathy (Powell et al), 386  
 mononeuritis multiplex following jellyfish stings (Filling-Katz), NOTE, 213  
 paraproteins in the spinal fluid of patients with paraproteinemic polyneuropathies (Dalakas and Papadopoulos), 590
- Peripheral nerves  
 hereditary form of sustained muscle activity of peripheral nerve origin causing generalized myokymia and muscle stiffness (Auger et al), 13
- Peroneal nerve  
 spinal somatosensory evoked potentials in juvenile diabetes (Cracco et al), 55
- Personality development  
 comparison of cognitive ability, personality profile, and

- school success in epileptic children with pure right versus left temporal lobe EEG foci (Camfield et al), 122
- Phenotype**  
 autosomal dominant inheritance of hereditary canine spinal muscular atrophy (Sack et al), 369  
 juvenile progressive dystonia: a new phenotype of  $G_{M2}$  gangliosidosis (Meek et al), 348
- Phenylacetates**  
 effects of hypoxia-ischemia on monoamine metabolism in the immature brain (Silverstein and Johnston), 342
- Phosphotransferases, ATP**  
 levels of adenylate deaminase, adenylate kinase, and creatine kinase in frozen human muscle biopsy specimens relative to type 1/type 2 fiber distribution: evidence for a carrier state of myoadenylate deaminase deficiency (Fishbein et al), 271
- Physostigmine**  
 long-term administration of oral physostigmine and lecithin improve memory in Alzheimer's disease (Levin and Peters), LETTER, 210; reply (Thal et al), LETTER, 210
- Pilocarpine**  
 collateral reinnervation of sweat glands (Kennedy and Sakuta), 73  
 quantitation of the sweating deficiency in diabetes mellitus (Kennedy et al), 482
- Polymyositis**  
 disturbance of regulatory lymphocyte subsets in polymyositis (Behan and Behan), LETTER, 112; reply (Lawton and Fenichel), LETTER, 114
- Polyradiculoneuritis**  
 demyelination induced by serum from patients with Guillain-Barré syndrome (Harrison et al), 163  
 dysautonomia in Guillain-Barré syndrome with dorsal root ganglionopathy, wallerian degeneration, and fatal myocarditis (Hodson et al), 88
- Potassium**  
 $Na^+$ - and  $K^+$ -dependent adenosine triphosphatase and multiple sclerosis (Esiri), LETTER, 404; reply (Hirsch), LETTER, 404
- Prednisone**  
 long-term corticosteroid treatment of myasthenia gravis: report of 116 patients (Pascuzzi et al), 291  
 steroid-responsive postinfectious sensorineural hearing loss (Amir et al), LETTER, 212
- Progressive supranuclear palsy**  
 apraxia of eyelid opening in progressive supranuclear palsy (Dehaene), LETTER; reply (Jankovic), LETTER, 115
- Pseudotumor cerebri**  
 pulmonary lymphatic flow alterations during intracranial hypertension in sheep (Simon and Bayne), 188
- Pulmonary edema**  
 pulmonary lymphatic flow alterations during intracranial hypertension in sheep (Simon and Bayne), 188
- Putamen**  
 Parkinson's disease: metabolic and pharmacological approaches with positron emission tomography (Raichle et al), S131
- Pyridoxal**  
 biochemical studies of pyridoxal and pyridoxal phosphate status and therapeutic trial of pyridoxine in patients with carpal tunnel syndrome (Smith et al), 104
- Pyridoxal phosphate**  
 biochemical studies of pyridoxal and pyridoxal phosphate status and therapeutic trial of pyridoxine in patients with carpal tunnel syndrome (Smith et al), 104
- Pyridoxine**  
 biochemical studies of pyridoxal and pyridoxal phosphate status and therapeutic trial of pyridoxine in patients with carpal tunnel syndrome (Smith et al), 104
- Pyrrrolidinones**  
 hyperekplexia: a syndrome of pathological startle responses (Sáenz-Lope et al), 36
- Quadriplegia**  
 "locked-in" state following Reye's syndrome (Kotagal et al), 599
- Radionuclides**  
 cyclotrons, radionuclides, precursors, and demands for routine versus research compounds (Wolf), S19
- Receptors, cholinergic**  
 enzyme-linked immunosorbent assay for antibody against the nicotinic acetylcholine receptor in human myasthenia gravis (Kawanami et al), 195  
 exacerbation of myasthenia gravis after removal of a thymoma having a membrane phenotype of suppressor T cells (Kuroda et al), 400
- Receptors, dopamine**  
 assessment of dopamine receptor densities in the human brain with carbon-11-labeled N-methylspiperone (Wagner et al), S79  
 lithium and parkinsonism (Lang), LETTER, 214  
 [ $^{18}F$ ]spiroperidol: a radiopharmaceutical for the in vivo study of the dopamine receptor (Welch et al), S77  
 summary of discussion: normal physiology as defined by positron emission tomography (Wagner and Frost), S110
- Receptors, endorphin**  
 in vivo studies of opiate receptors (Frost et al), S85  
 the ontogeny of seizures induced by leucine-enkephalin and  $\beta$ -endorphin (Snead and Stephens), 594  
 opioid-induced epileptogenic phenomena: anatomical, behavioral, and electroencephalographic features (Chugani et al), 361
- Reflex, abnormal**  
 permanent neurological deficits resulting from lithium toxicity (Green), LETTER, 111  
 severe neurological disease associated with hyperparathyroidism (Patten and Pages), 453
- Rehabilitation, vocational**  
 occupational adjustment following neurosurgical treatment of epilepsy (Augustine et al), 68
- Reinnervation, collateral**  
 collateral reinnervation of sweat glands (Kennedy and Sakuta), 73
- Resection, cortical**  
 occupational adjustment following neurosurgical treatment of epilepsy (Augustine et al), 68
- Reticulum**  
 eye movements induced by head rotation in unresponsive patients (Leigh et al), 465
- Reye's syndrome**  
 "locked-in" state following Reye's syndrome (Kotagal et al), 599
- Schizophrenia**  
 patterns of metabolic activity in the treatment of schizophrenia (Brodie et al), S166  
 positron emission tomographic image measurement in schizophrenia and affective disorders (Buchsbaum et al), S157  
 [ $^{18}F$ ]spiroperidol: a radiopharmaceutical for the in vivo study of the dopamine receptor (Welch et al), S77
- Schwann cells**  
 axolemma is a mitogen for human Schwann cells (Sobue et al), 449

- Sciatic nerve  
collateral reinnervation of sweat glands (Kennedy and Sakuta), 73  
rapid alterations of the axon membrane in antibody-mediated demyelination (Saida et al), 581
- Scrapie  
amyloid plaques in the brains of mice with Creutzfeldt-Jakob disease (Tateishi et al), 278
- Seizures  
opioid-induced epileptogenic phenomena: anatomical, behavioral, and electroencephalographic features (Chugani et al), 361  
the role of positron emission tomography in the evaluation of seizure disorders (Theodore et al), S176
- Seizures, age at onset  
age at onset of seizures in young children (Ellenberg et al), 127
- Seizures, diagnosis of  
value of computed tomographic scan in the evaluation of adult patients after their first seizure (Ramirez-Lassepas et al), 536
- Seizures, motor  
partial elementary motor seizures as the first symptom of Creutzfeldt-Jakob disease (Aronyk et al), LETTER, 210
- Seizures, neonatal  
outcome in neonates with seizures; are chronic anticonvulsants necessary? (Gal et al), LETTER, 610; reply (Bergman et al), LETTER, 611
- Seizures, petit-mal  
the ontogeny of seizures induced by leucine-enkephalin and  $\beta$ -endorphin (Snead and Stephens), 594
- Seizures, psychomotor  
selective memory improvement and impairment in temporal lobectomy for epilepsy (Novelly et al), 64
- Serotonin  
central nervous system catecholamine metabolism in Korsakoff's psychosis (Martin et al), 184
- Sleep apnea syndromes  
brainstem auditory evoked potentials are normal in idiopathic sleep apnea (Karnaze et al), LETTER, 406
- Sleep stages  
effect of baclofen on sleep-related periodic leg movements (Guilleminault and Flagg), 234
- Sodium  
 $\text{Na}^+$ - and  $\text{K}^+$ -dependent adenosine triphosphatase and multiple sclerosis (Esiri), LETTER, 404; reply (Hirsch), LETTER, 404
- Speech disorders  
permanent neurological deficits resulting from lithium toxicity (Green), LETTER, 111
- Spinal cord  
spinal somatosensory evoked potentials in juvenile diabetes (Cracco et al), 55
- Spinal cord necrosis  
nonhemorrhagic venous infarction of the spinal cord (Kim et al), 379
- Spinal nerves  
painful lumbosacral plexopathy with elevated erythrocyte sedimentation rate: a treatable inflammatory syndrome (Bradley et al), 457
- Spiperone  
assessment of dopamine receptor densities in the human brain with carbon-11-labeled N-methylspiperone (Wagner et al), S79  
measurements in vivo of parameters of the dopamine system (Friedman et al), S66
- [ $^{18}\text{F}$ ]spiroperidol: a radiopharmaceutical for the in vivo study of the dopamine receptor (Welch et al), S77  
summary of discussion: normal physiology as defined by positron emission tomography (Wagner and Frost), S110
- Startle reaction  
hyperekplexia: a syndrome of pathological startle responses (Sáenz-Lope et al), 36
- Status epilepticus  
the role of positron emission tomography in the evaluation of seizure disorders (Theodore et al), S176
- Subacute sclerosing panencephalitis  
computed tomography of the brain in subacute sclerosing panencephalitis (Krawiecki et al), 489  
detection of viral genes and their products in chronic neurological diseases (Haase et al), CONFERENCE REPORT, 119
- Subarachnoid hemorrhage  
care of the patient with stroke (Snyder), LETTER, 211
- Substantia nigra  
central distal axonopathy syndromes: newly recognized models of naturally occurring human degenerative disease (Thomas et al), HYPOTHESIS, 313  
Huntington's disease: survival of large striatal neurons in the rigid variant (Bugiani et al), 154  
Parkinson's disease: metabolic and pharmacological approaches with positron emission tomography (Raichle et al), S131
- Suppressor cells  
exacerbation of myasthenia gravis after removal of a thymoma having a membrane phenotype of suppressor T cells (Kuroda et al), 400
- Sweat glands  
collateral reinnervation of sweat glands (Kennedy and Sakuta), 73
- Sweating  
quantitation of the sweating deficiency in diabetes mellitus (Kennedy et al), 482
- Temporal arteritis  
bilateral carotid artery occlusion resulting from giant cell arteritis (Howard et al), 204
- Temporal lobe  
resumption of behavior following intracarotid sodium amobarbital injection (Rausch et al), 31  
selective memory improvement and impairment in temporal lobectomy for epilepsy (Novelly et al), 64
- Thalamus  
hypometric saccades and low-gain pursuit resulting from a thalamic hemorrhage (Brigell et al), 374
- Thiopental  
extraction of clinical information from electroencephalographic background activity: the combined use of brain electrical activity mapping and intravenous sodium thiopental (Duffy et al), 22
- Thromboembolism  
use of a heparinoid in patients with hemorrhagic stroke and thromboembolic disease (Ten Cate et al), 268
- Thrombosis  
microangiopathy of vasa nervorum in dysglobulinemic neuropathy (Powell et al), 386  
nonhemorrhagic venous infarction of the spinal cord (Kim et al), 379
- Thymoma  
exacerbation of myasthenia gravis after removal of a thymoma having a membrane phenotype of suppressor T cells (Kuroda et al), 400

## Thyroid diseases

Alzheimer's disease: a study of epidemiological aspects (Heyman et al), 335

## Tissue culture

tissue culture demyelination by normal human serum (Silberberg et al), 575

## T lymphocytes

disturbance of regulatory lymphocyte subsets in polymyositis (Behan and Behan), LETTER, 112; reply (Lawton and Fenichel), LETTER, 114

exacerbation of myasthenia gravis after removal of a thymoma having a membrane phenotype of suppressor T cells (Kuroda et al), 400

a serial study of peripheral blood T lymphocyte subsets in relapsing-remitting multiple sclerosis (Kastrukoff and Paty), 250

## Tomography, emission computed

acute hemorrhagic leukoencephalitis: diagnosis by computed tomography (Watson et al), LETTER, 611

assessment of dopamine receptor densities in the human brain with carbon-11-labeled N-methylspiperone (Wagner et al), S79

contralateral cerebellar hypometabolism following cerebral insult: a positron emission tomographic study (Kushner et al), 425

criteria for the tracer kinetic measurement of cerebral protein synthesis in humans with positron emission tomography (Phelps et al), S192

cyclotrons, radionuclides, precursors, and demands for routine versus research compounds (Wolf), S19

dynamic cerebral positron emission tomographic studies (Ter-Pogossian et al), S46

dynamic measurements of local blood flow and metabolism the study of higher cortical function in humans with positron emission tomography (Raichle et al), S48

the effect of normal aging on patterns of local cerebral glucose utilization (Kuhl et al), S133

emission tomographic measurement of local cerebral blood flow in humans by an in vivo autoradiographic strategy (Ginsberg et al), S12

functional evaluation of the blood-brain barrier using positron emission tomography (Lockwood), S103

Gilles de la Tourette syndrome: studies with the fluorine-18-labeled fluorodeoxyglucose positron emission tomographic method (Chase et al), S175

human sensory stimulation and deprivation: positron emission tomographic results and strategies (Mazziotta and Phelps), S50

instrumentation for positron emission tomography (Budinger et al), S35

in vivo measurement of regional brain tissue pH using positron emission tomography (Rottenberg et al), S98

in vivo studies of opiate receptors (Frost et al), S85

issues in the in vivo measurement of glucose metabolism of human central nervous system tumors (Di Chiro et al), S138

measurements in vivo of parameters of the dopamine system (Friedman et al), S66

modeling metabolic processes in the brain in vivo (Sokoloff), S1

nuclear magnetic resonance versus computerized tomographic enhancement imaging in multiple sclerosis: an apples and oranges comparison (Sears), LETTER, 309; reply (Norman and Aminoff), LETTER, 310

Parkinson's disease: metabolic and pharmacological approaches with positron emission tomography (Raichle et al), S131

patterns of cerebral glucose utilization in Parkinson's disease and Huntington's disease (Kuhl et al), S119

patterns of metabolic activity in the treatment of schizophrenia (Brodie et al), S166

positron emission tomographic image measurement in schizophrenia and affective disorders (Buchsbaum et al), S157

positron emission tomographic studies in aging and cerebrovascular disease at Hammersmith Hospital (Frackowiak et al), S112

positron emission tomographic studies of perceptual tasks (Reivich and Gur), S61

positron emission tomographic study of affective disorders: problems and strategies (Phelps et al), S149

positron imaging in ischemic stroke disease (Ackerman et al), S126

prospects for both precision and accuracy in positron emission tomography (Hoffman et al), S25

pure hemidystonia with basal ganglion abnormalities on positron emission tomography (Perlmutter and Raichle), 228

a quantitative model for the in vivo assessment of drug binding sites with positron emission tomography (Mintun et al), 217

radiation absorbed dose to tracheal mucosa from inhaled oxygen-15-labeled carbon dioxide (Powell et al), S107

regional cortical dysfunction in Alzheimer's disease as determined by positron emission tomography (Chase et al), S170

a regional metabolic contrast method for the study of brain pathology (Agranoff and Frey), S93

the role of positron emission tomography in the evaluation of seizure disorders (Theodore et al), S176

[<sup>18</sup>F]spiroperidol: a radiopharmaceutical for the in vivo study of the dopamine receptor (Welch et al), S77

summary of discussion: models and technology used in positron emission tomography (Wolf and Budinger), S44

summary of discussion: normal physiology as defined by positron emission tomography (Wagner and Frost), S110

summary of discussion: positron emission tomography of abnormal and diseased states, I (Kuhl), S147

summary of discussion: positron emission tomography of abnormal and diseased states, II (Reivich), S203

the use of positron emission tomographic scanning in epilepsy (Engel), S180

## Tomography, x-ray computed

computed tomography in acute hemorrhagic leukoencephalitis (Rothstein and Shaw), LETTER, 312

computed tomography in Alexander's disease (Farrell et al), 605

computed tomography of the brain in subacute sclerosing panencephalitis (Krawiecki et al), 489

effect of high-dose intravenous steroid administration on contrast-enhancing tomographic scan lesions in multiple sclerosis (Troiano et al), 257

neglect in children (Ferro et al), 281

value of computed tomographic scan in the evaluation of adult patients after their first seizure (Ramirez-Lassepas et al), 536

## Trace elements

brain trace elements in Pick's disease (Ehmann et al), 102

## Trachea

radiation absorbed dose to tracheal mucosa from inhaled oxygen-15-labeled carbon dioxide (Powell et al), S107

## Tranquilizing agents, major

patterns of metabolic activity in the treatment of schizophrenia (Brodie et al), S166

- Tremor, essential**  
 useful techniques in essential tremor (Koller), LETTER, 508
- Trigeminal neuralgia**  
 baclofen in the treatment of trigeminal neuralgia: double-blind study and long-term follow-up (Fromm et al), 240
- Valproate**  
 hyperekplexia: a syndrome of pathological startle responses (Sáenz-Lope et al), 36  
 microangiopathy of vasa nervorum in dysglobulinemic neuropathy (Powell et al), 386
- Vasculitis**  
 intracerebral hemorrhage and vasculitis related to ephedrine abuse (Nadeau), LETTER, 114; reply (Wooten and Murphy), LETTER, 115
- Visna**  
 detection of *viz1* genes and their products in chronic neurological diseases (Haase et al), CONFERENCE REPORT, 119
- Vasopressins**  
 cerebrospinal fluid vasopressin and increased intracranial pressure (Sørensen et al), 435
- Visual pathways**  
 the functional anatomy of frontal lobe neglect in the monkey: behavioral and quantitative 2-deoxyglucose studies (Deuel and Collins), 521  
 hypometric saccades and low-gain pursuit resulting from a thalamic hemorrhage (Brigell et al), 374  
 neglect in children (Ferro et al), 281
- Vitamin D**  
 calcium and vitamin D metabolism in Guamanian Chamorros with amyotrophic lateral sclerosis and parkinsonism-dementia (Yanagihara et al), 42
- Vitamin E**  
 regional blood flow in compression-induced brain edema in rats: effect of dietary vitamin E (Busto et al), 441
- Vitamin E deficiency**  
 reversible visual evoked potential abnormalities in vitamin E deficiency (Messenheimer et al), 499
- Xenon isotopes**  
 mechanisms of recovery from aphasia: evidence from serial xenon 133 cerebral blood flow studies (Knopman et al), 530
